

ENVIROMENTAL POLICY

Corr and Nyland are constantly promoting ways to prevent pollution and have a responsible approach to waste management. Corr & Nyland will:

- Comply with current environmental legislation and government policy.
- Provide staff training and create awareness with a view to improving environmental procedures.
 - Ensure all sub-contractors comply with this policy and meet environmental standards.
- Review and update our policy to ensure efficient management of our environmental impact and compliance with the environmental policy, legislation and company policy.
